SUMMARY

Computer Science student with strong technical proficiency in the Apple ecosystem (Swift, Xcode) and customer service experience in high-volume environments. Passionate about educating customers on technology and personalizing solutions to enhance their digital lives.

EDUCATION

York University

Toronto, Ontario

B.Sc. (Hons.) in Computer Science

Expected Graduation, 2028

- **Coursework:** Data Structures, Algorithms, OOP, Software Tools, Computer Organization

EXPERIENCE

Appli AI

Toronto, Ontario

Backend Developer (Intern)

Oct 2025 – Present

- Building secure REST APIs for authentication, job posting, and applicant workflows.
- Designing relational database models (PostgreSQL) to support scalable candidate-matching features.
- Collaborating with the ML team to integrate recommendation endpoints.

Tim Hortons

Toronto, Ontario

Team Member (Cashier & Barista)

Nov 2024 – Present

- Collaborated with team members to maintain workflow efficiency during peak rush hours, ensuring a positive customer experience.
- Delivered exceptional customer service in a high-volume, fast-paced environment, effectively managing multiple priorities.

Technical Consultant & PC Assembler

Mashhad, Iran

Independent

Oct 2021 – Aug 2022

- Consulted with home clients to identify needs and personalize hardware upgrades, resulting in optimized performance.
- Educated clients on hardware maintenance and specifications, translating technical jargon into easy-to-understand concepts.

PROJECTS

School Companion App

Mashhad, Iran

Android (Java, XML), Google Drive API

November 2017 – December 2018

- Designed and deployed a mobile application to streamline daily academic organization for the student community, consolidating schedules and announcements into an intuitive user interface.
- Engineered real-time data synchronization using the Google Drive API to ensure students had instant access to up-to-date polls and schedule changes.
- Focused on user experience (UX) and accessibility to drive adoption within the school community, serving as a central hub for student communication.

ACTIVITIES AND LEADERSHIP

NeighbourhoodLink via Better Impact

Toronto, Ontario

Volunteer

Sep 2022 – Jul 2023

- Fostered an inclusive environment by supporting community members of diverse ages and backgrounds.
- Demonstrated empathy and patience while assisting with community outreach programs, ensuring all participants felt welcomed and valued.

SKILLS

Apple Ecosystem & Development: Swift, Objective-C, Xcode, Java (Spring Boot), Python (Django), Android Studio

Client Relations: Customer Consultation, Public Speaking, Translating Technical Concepts, Needs Assessment

Troubleshooting: Hardware Diagnostics (PC & Mobile), Software Setup, Problem Solving, System Assembly

Tools & Platforms: Git, Linux, PostgreSQL, Agile Workflow
